GENERAL SPORTS RULES for Pocket Billiards

The current issue of the BCA rule book entitled "RULES FOR TOURNAMENT PLAY AND GENERAL RULES OF POCKET BILLIARDS" will be strictly adhered to. The rule of fouling an object ball accidentally will be waived in the absence of a formal referee or an impartial third person.

It is unfair for the shooting player to bend over the table for his/her shot and to have his/her opponent then declare "your shirt or your jacket or some other part of you" touched an object ball. The shooter has no defense against this type of charge mainly because he/she neither can see it (his/her head and eyes are well ahead of his/her body) nor can he/she feel this declared rule violation. All professional games abide by the "Foul on the Cue Ball Only" rule except where a referee or impartially third person is in charge.

Accidentally moved object ball/balls (without a referee): Upon mutual agreement between the shooter and his/her opponent said moved object ball/balls will be returned to original position. However, if this cannot be mutually agreed on: **THE NON-SHOOTER WILL PREVAIL.** Reason: if a referee had been in charge the shooter would have had no say whatever. The shooter would have lost his/her turn at the table, be penalized one point for the foul and the referee would have returned the ball/balls as near as possible as to his/her (the referee's) best recollection.

USPFC BILLIARDS-2026

A deliberate, intentional disturbance of any object ball/balls is subject to immediate disqualification and loss of that match and possible total disqualification from further tournament participation.

BCA rules specifically provide for unsportsmanlike conduct penalties to be imposed by the tournament director.

Tournament Director to see that no player is compelled to play two consecutive matches on the same table without the consent of both players.

Special notes for rule of play: **SIMULTANEOUS HITS**

Nine Ball- A legal shot requires that the cue ball's **first contact** be with the **lowest numbered** ball on the table. Therefore, when the possibility of a simultaneous hit presents itself (and no referee is officiating), it will be the responsibility of the shooter to request that an independent/neutral observer approach the table (as close as possible) without interfering with the shooter and stand in such a manner that they are able to view both balls in question. Their eyes to be as near as possible directly over the object ball to be struck first and thus render a decision as to the legality of the hit. **THE OBSERVER'S DECISION IS FINAL.**

Eight Ball- Once a player has qualified to be either on "solids" or "stripes", their initial contact by the cue ball must be with said declaration of "solid" or "stripe". No simultaneous hits. Therefore, as in Nine Ball, the shooter is to call for an independent observer whose decision will again be final.
